**OVERVIEW**

The Visair heated open front merchandiser has been created for busy supermarkets, C-stores and food service outlets that require high capacity heated products displayed at their best. Have peace of mind knowing that your food is consistently safeguarded at core temperature with product freshness and look ensured using new I Wave technology (gentle infrared heating). The infrared technology means lowest possible operation costs and double the presentation time of your heated product...guaranteed.

**FEATURES**

- High energy efficiency - 1.75 kWh per hour average
- Low wattage infrared elements for even temperature distribution
- Double glazed side panels for maximum insulation
- Two shelves and base to give three display levels
- Designed to be free standing
- Electronic controller to help maintain high efficiency
- LED light in cabinet top - and additional LED lighting to each shelf. LED's have 25,000 hour life span
