ENCORE SERIES 8 IN-COUNTER LINE-UP REFRIGERATED & HEATED 1200
AT BAKE SHACK, MOUNT MAUNGANUI, NEW ZEALAND

ENCORE

SERIES 8

Invest with confidence.

Encore Series 8 cabinets are peak performers.

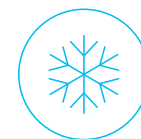

With cabinets to cater for refrigerated, heated and ambient food, create a stunning lineup of cabinets that work harmoniously together. Enjoy the significant lifetime savings due to their superior energy efficiency.

Cabinet-wide climate control is honed perfectly to hold food and drinks for longer. Merchandise a wide variety of products with confidence.

Save on set-up costs. Replace counter joinery by adding finishing features to Freestanding cabinets: powdercoated colour, decals to the chassis, a tray race, and toe kick. Or choose In-counter or On-counter cabinets for installation in custom-made joinery.

An extensive range of modular ready-to-go options enable you to configure your Encore cabinet to meet your operational needs and wants. Request clever rear Sling Doors that slide and swing, and Pull-Out Shelves. Together they make stocking, serving, and cleaning quick and easy.

Encore – working smarter at all levels.

Encore Series 8 Refrigerated 1200

OPTIONS TO SUIT YOUR BUSINESS

Created as a flexible display solution for c-stores, cafés, and bakeries, Encore Series 8 cabinets have four display levels and a square profile.

They are available in two popular formats to suit your customer engagement model:

- Tilt front for serve-over customer service.
- Sliding doors for self-service.

If your customer engagement model changes, no problem. You can swap out the tilt front of your cabinet with sliding doors and vice versa while the cabinets are in situ. A smart feature that maximises your cabinet investment.

Looking for an open front cabinet? See our brochure on Encore Series 8 Open Front refrigerated cabinets. They line up perfectly with Encore Series 8 tilt front and sliding door models.

TILT FRONT

CUSTOMER SIDE
SLIDING DOORS

Create your line-up to suit your product offerings and capacity.

Encore Series 8 cabinets are available in a range of sizes and temperatures:

OUTSTANDING PERFORMANCE

PERFORMANCE BY DESIGN.

Guaranteed core
product temperatures
for the lifetime
of the cabinet.

Enjoy peace of mind.

All Encore Series 8 cabinets are tested in our environmental test laboratory to deliver consistent core product temperatures:

| Cabinet type | Average core product temperature | Environmental test conditions |
|--|----------------------------------|--------------------------------|
|  Refrigerated | +1°C to +3°C | Climate Class 3: 25°C / 60% RH |
|  Controlled Ambient | +16°C to +18°C | Climate Class 3: 25°C / 60% RH |
|  Heated | +65°C to +80°C | 22°C / 65% RH |
|  Ambient | Ambient | Ambient |

Gets the tick for all things electrical.

Encore Series 8 cabinets are compliant with the latest international regulations for electrical safety, electromagnetic emissions, and eco-design.

OPTIMAL HEATED CABINETS

Energy efficiency, temperature performance and extended shelf life.

Encore Series 8 heated cabinets are designed to maximise energy efficiency and heating control through a combination of:

- Low wattage density element engineered with longer tubes to provide even gentle heating throughout the whole cabinet.
- Thermostat cycling to automatically turn the heating off/on according to temperature.
- Low-E coated double-glazed glass which provides superior insulation.

This means ...

Hot food is ready to be enjoyed. Food is held safely above +65° C.

Extended shelf life. Product is held in better condition for longer, reducing food waste.

Savings. Your power bills reduce reflecting lower energy consumption.

SUPERIOR REFRIGERATED CABINETS

Energy efficiency and temperature performance and extended shelf life.

Encore Series 8 refrigerated cabinets are rated up to 10 stars (Australia and New Zealand) and up to A (Europe)¹ for maximum energy efficiency.

They are classified 3MO with an average of +1° - +3° C for Climate Class 3.

And managed humidity levels inside the display area are as high as 80%. Outstanding!

This means ...

Peace of mind. They are **100% food and dairy safe.**

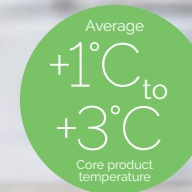

Extended shelf life. Food retains moisture and is fresher for longer.

Savings. Your power bills reduce reflecting lower energy consumption.

Sustainable on-board refrigerant.

Encore Series 8 refrigerated cabinets have integral refrigeration which means they are plug and play.

We use R290 natural refrigerant which is kind to the environment and meets international regulations.

¹ Encore Series 8 refrigerated 600, 900 and 1200 cabinet models achieved the maximum energy ratings.

LIGHT IT UP

Brilliant, long life LED lighting at the top of the cabinet and under each shelf ensures your food and drinks are displayed at their best.

With extended lifespans, lighting maintenance stays minimal while your products always look irresistible:

Refrigerated cabinets: 50,000 hours

Heated cabinets: 25,000 hours

WE
HELP YOU
SELL MORE.

Guaranteed best-in-class design that delivers unique customer experiences.

ELEVATE YOUR BRAND

Create a merchandising display that excels in attracting customer attention and differentiates your brand. Explore the options with FPG.

ATTRACT WITH COLOUR

Choose custom colours for the shelves and ticket strips to complement your branding and create impact.

WARM IT UP WITH WOODPRINT

Apply woodprint to shelves to create a natural, inviting display.

ENRICH WITH MIRROR EFFECT

Mirror effect on the sides of your cabinet makes your display appear more abundant.

ENHANCE FOOD OFFER WITH BRANDING

Custom decals on freestanding cabinets boost your brand presence and create impact.

INSTALLATION OPTIONS

FREESTANDING

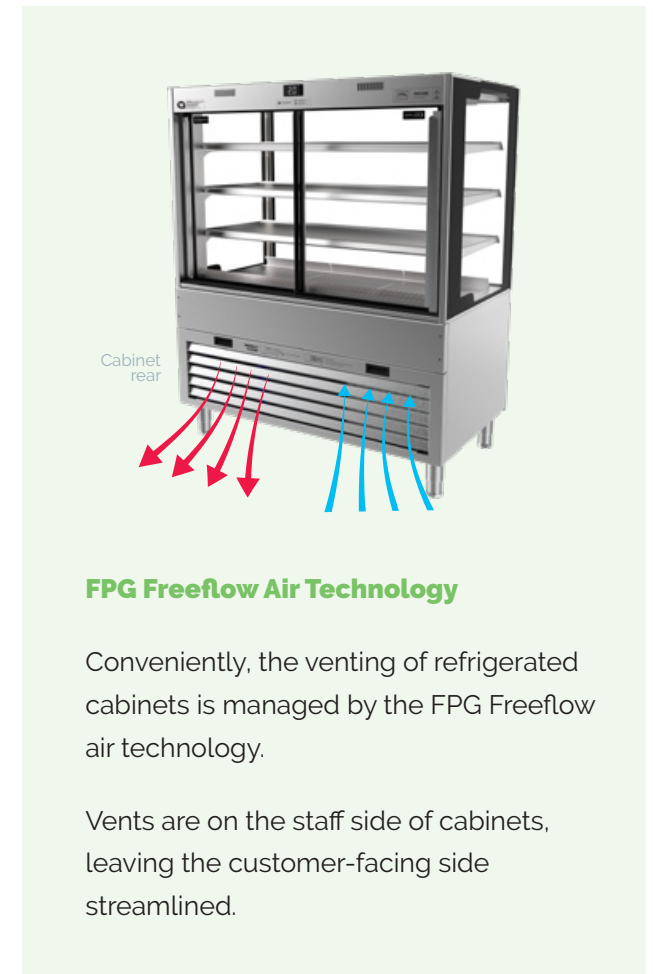

Save money! Configure your cabinet with options specifically designed for freestanding cabinets and eliminate the need for joinery.

IN-COUNTER & ON-COUNTER

Request in-counter or on-counter cabinets to install your Encore Series 8 cabinet into custom-made counter joinery.

For an exceptional finish, FPG can help you with a full turnkey package.

FPG Freeflow Air Technology

Conveniently, the venting of refrigerated cabinets is managed by the FPG Freeflow air technology.

Vents are on the staff side of cabinets, leaving the customer-facing side streamlined.

A toe kick.

ENCORE SERIES 8 REFRIGERATED 1200
WITH OPTIONAL FEATURES - BUMPER RAIL,
COLOURED CHASSIS AND TOE KICK.

MERCHANDISING EXCELLENCE

**Trusted.
For Life.**

SUSTAINABILITY

From the outset FPG has been engineering cabinets to deliver core product temperature while optimising energy efficiency. Our cabinets help customers to use less power and to reduce their food waste by extending shelf life.

FPG has a track record of transitioning its refrigerated cabinets to use refrigerants that are kinder to the environment; the latest transition being the uptake of organic refrigerants such as R290.

We build our cabinets to last. Using high quality components to ensure consistent reliable operation, our customers experience less business interruption. From long-life LEDs to double-glazed glass with a low-E (low-emissivity) coating for insulation, components are consciously selected to contribute to the cabinet's longevity and operational performance.

We promise to have spare parts available for as long as your cabinet is in service. And, at the end of their life, we estimate that 85% of our cabinets (by volume) can be recycled.

TRUSTED FOR LIFE

Extend the lifetime of your cabinet.

A few simple actions are all it takes to extend the lifetime of your cabinet and keep your warranty valid.

- Illustrated daily and weekly cleaning guidelines for operators are available from the 'How To' webpage accessed from the Service menu on the FPG website.
- For refrigerated and controlled ambient cabinets save on technical support costs. Protect the refrigeration system to ensure it runs efficiently and maintains core product temperatures by:
 - Cleaning the easy-to-access pre-filter fitted located behind the rear vents weekly.
 - Scheduling a deep clean of the condenser coil and inspection of the cabinet annually by a refrigeration technician.
- For heated and ambient cabinets, schedule an inspection of the cabinet annually by an electrical appliance technician. Keep your cabinet in tip top condition.

**BUILT
TO LAST**

We stand by
everything we sell
for its lifetime.

Cabinet warranty.

The warranty term is:

- Two years for all Encore cabinets.
- Three years for the condensing unit in refrigerated and controlled ambient cabinets.

Warranty terms and conditions are published in the cabinet manual.

Well supported.

FPG Technical Support is available online and by phone. We publish online resources to support the technical service providers of our customers. These include 'How To' videos and comprehensive manuals.

We also offer training via online platforms and recommend the spare parts the service provider should hold locally to service the cabinets.

STANDARDS MET

FPG engineers all cabinets to meet international standards.

International safety standards for electrical refrigerated appliances:
IEC 60335-1, IEC 60335-2-89, and the equivalent country-specific standards including AS/NZS and BS EN.

International safety standards for electrical heated appliances:
IEC 60335-1, IEC 60335-2-49, IEC 60335-2-50 and the equivalent country-specific standards including AS/NZS and BS EN.

International standards for electromagnetic compatibility/emissions:
CISPR 14-1, and the equivalent country-specific standards including AS/NZS CISPR and BS EN 55014-1.

Essential safety requirements: AS/NZS 3820 and AS/NZS 4417.

Energy efficiency for refrigerated appliances: MEPS (Australia/New Zealand) and EPREL (Europe)

Some countries permit self-declaration while other countries may require external testing and certificates of conformity.
