MAXIMUM IMPACT
MINIMAL FOOTPRINT

IMPULSE SLIM REFRIGERATED 13H 09W - 6-CABINET ISLAND CONFIGURATION WITH 3 SHELVES PLUS BASE AND AMBIENT DISPLAY TO TOP

IMPULSE

REFRIGERATED

An agile solution for fast-paced retail.

Impulse refrigerated cabinets are super-chilled. They make drinks deliciously cool, and food is held 100% safely.

The Impulse family includes two ranges based on depth:

- Impulse Slim at a slender 466mm depth can go anywhere.
- Impulse Plus at 600mm depth offers increased capacity.

Both are ideal for fast moving goods. They maximise product facings for greater product choice.

With compact footprints, small, medium, and large islands can be created, meeting your space and capacity needs.

Their uncluttered design is crisp, and their simplicity and tested performance speak to engineering excellence.

Impulse for instant success.

PERFECT FOR
CHECKOUTS

IMPULSE SLIM REFRIGERATED 12H 09W - SUPERMARKET CHECKOUTS

COMPLIANCE ASSURED

Food and dairy safe.

Your customers will love buying icy cold drinks from your Impulse refrigerated cabinet!

Impulse refrigerated cabinets have been tested in FPG environmental test laboratories, achieving an average of **+0.5° - +2°C** core product temperature for Climate Class 3: +25°C / 60% RH. Very cool.

100% safe for dairy and food. Guaranteed.

Gets the tick for all things electrical.

Impulse Series cabinets are compliant with the latest international regulations for electrical safety, energy efficiency, and eco-design.

Sustainable on-board refrigerant.

Impulse refrigerated cabinets have integral refrigeration which means they are plug and play.

We use R290 natural refrigerant which is kind to the environment and meets international regulations.

THERE'S AN IMPULSE CABINET THAT'S RIGHT FOR YOU

Impulse cabinets provide multiple options for integrating refrigerated displays into point-of-sale counters, confectionery window run-ups, gondola ends, and even within ambient aisles.

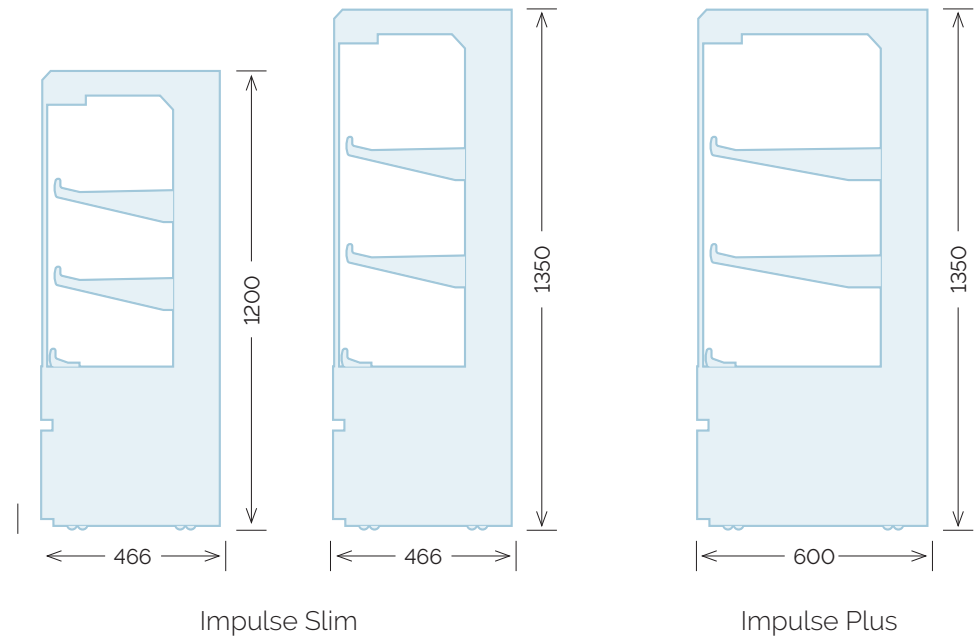

Impulse Slim

With a slim depth of only 466mm, Impulse Slim cabinets are so agile. They go anywhere. Ideal when you want to maximise product facings.

Choose your height to match your product and location.

Impulse Plus

Need more capacity? With increased depth of 600mm, Impulse Plus provides both the product facings and extra capacity you need for high turnover products. All on a compact footprint.

IMPULSE SLIM REFRIGERATED 13H 09W - 6-CABINET ISLAND CONFIGURATION WITH 3 SHELVES PLUS BASE AND AMBIENT DISPLAY TO TOP

FABULOUS ISLANDS

Create impact and attract customers.

Make a statement with an island comprised of Impulse cabinets. They are ideal to create appealing cross merchandising opportunities.

Make a smaller island with Impulse Slim cabinets. Optimise impact on a minimal footprint.

Have the space? Make a big impact with a big island using Impulse Plus cabinets.

Incorporate ambient displays to promote your coffee station, fresh flowers, or complementary ambient product.

Enhance your island with display aids such as racks, cane baskets, acrylic tumble bins and signage supports.

Talk to us. FPG can design and build your integrated display.

OPEN FRONT OR FRONT SWING DOORS

Impulse cabinets are open front for uninhibited access to product – a night curtain is an option to improve energy efficiency when the cabinet is left running while the store is closed.

For unpackaged product, or when you wish to maximise energy efficiency, request the model with front swing doors.

LIGHT IT UP

The visual appeal of food and drink merchandise is significantly enhanced by super bright, energy efficient LED lighting.

Pluggable LED lighting is located at the top of the display and at each shelf. The plug-in feature enables shelves to be relocated without the need for an electrician. Easy to replace, the LED lighting has a long life of 50,000 hours.

MAKE IT POP!

In their standard configuration:

The chassis and shelves of Impulse refrigerated cabinets are powdercoated black with double-glazed safety glass on each side. The cabinet 'dissolves' into the background enabling customers to focus on your merchandise.

Create a merchandising display that excels in attracting customer attention and supports increased sales.

FPG can help you to explore the options to boost your brand presence and suit your business operation. A minimum order quantity may apply.

MAKE IT YOUR OWN

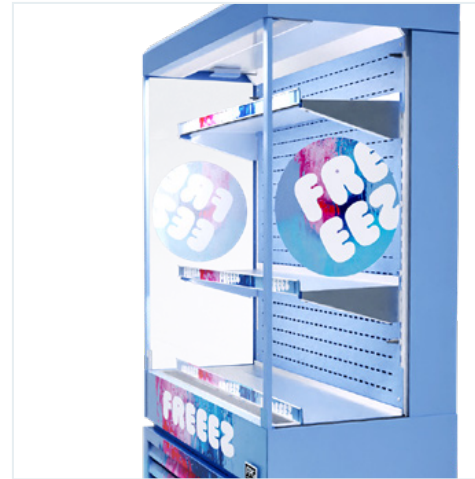

COLOUR

Specify a different colour for the chassis and/or shelves to complement your branding and create impact.

WOODPRINT

Apply woodprint to shelves to create a visually appealing display.

DECALS

Apply branded decals to boost your brand presence.

SHELVING

Add or remove shelves to accommodate product heights, or to change capacity and facings.

MIRROR EFFECT

Request mirror effect for the internal sides to create a fuller-looking display.

NIGHT CURTAIN

Add a night curtain to open front cabinets to reduce energy consumption over night.

LOCKABLE CASTORS

Replace unidirectional rollers with heavy-duty lockable castors for maximum manoeuvrability.

WE HELP YOU
SELL MORE.

Guaranteed best-in-class design that delivers unique customer experiences.

SUSTAINABILITY

From the outset FPG has been engineering cabinets to deliver core product temperature while optimising energy efficiency. Our cabinets help customers to use less power and to reduce their food waste by extending shelf life.

FPG has a track record of transitioning its refrigerated cabinets to use refrigerants that are kinder to the environment; the latest transition being the uptake of organic refrigerants such as R290.

We build our cabinets to last. Using high quality components to ensure consistent reliable operation, our customers experience less business interruption. From long-life LEDs to double-glazed glass with a low-E (low-emissivity) coating for insulation, components are consciously selected to contribute to the cabinet's longevity and operational performance.

We promise to have spare parts available for as long as your cabinet is in service. And, at the end of their life, we estimate that 85% of our cabinets (by volume) can be recycled.

TRUSTED FOR LIFE

Extend the lifetime of your cabinet.

A few simple actions are all it takes to extend the lifetime of your cabinet and keep your warranty valid:

- Illustrated daily and weekly cleaning guidelines for operators are available from the 'How To' webpage accessed from the Service menu on the FPG website.
- Clean the cabinet pre-filter weekly. You'll save on technical support costs while protecting the refrigeration system so it can run efficiently and maintain core product temperatures.
- Schedule a deep clean of the condenser coil and inspection of the cabinet annually by a refrigeration engineer/technician. Keep your cabinet in tip top condition.

Cabinet Warranty.

The warranty term is:

- Two years for all Impulse refrigerated cabinets.
- Three years for the condenser.

Warranty terms and conditions are published in the cabinet manual.

Well supported.

FPG Technical Support is available online and by phone. We publish online resources including 'How To' videos to support the technical service providers of our customers.

We also publish comprehensive manuals, and offer training via online platforms, recommending the spare parts the service provider should hold locally to service the cabinets.

FPG engineers all cabinets to meet international standards.

International safety standards for electrical refrigerated appliances: IEC 60335-1, IEC 60335-2-89, and the equivalent country-specific standards including AS/NZS and BS EN.

International standards for electromagnetic compatibility/emissions: CISPR 14-1, and the equivalent country-specific standards including AS/NZS CISPR and BS EN 55014-1.

Essential safety requirements: AS/NZS 3820 and AS/NZS 4417.

Energy efficiency for refrigerated appliances:
MEPS (Australia/New Zealand).
EPREL (European Product Registry for Energy Labelling).

Some countries permit self-declaration while other countries may require external testing and certificates of conformity.
