MEET THE FAMILY

FPG takes care with every cabinet we make.

We focus on designing premium, compliant food and drink display cabinets. Cabinets that achieve sustainable outcomes and operational cost savings through:

- Maximised energy efficiency.
- Extended cabinet lifetime through ease of maintenance and access to support and spare parts for the life of the cabinet.
- Extended food shelf life and reduced food waste.

As markets migrate to natural refrigerants, FPG will support you with options for refrigerated display cabinets.

Options and accessories are available to make the cabinet your own. Select those design and operational features important to you.

From application of custom colour and branded decals, to customer-facing fascia and tray races, we can help you to create brand impact, improve your customer experience, and sell more product.

Let's meet the family.

ENCORE

Working smarter at all levels.

With sleek profiles, brilliant LED lighting, and many customisable finishes to choose from, Encore cabinets elevate your brand and attract customers. They help you sell more.

Proven for energy efficiency and extended shelf life, you will also enjoy significant savings throughout their lifetime.

Add operational enhancements to improve efficiency. Innovative rear Sling Doors that slide and swing together with Pull-Out Shelves make stocking, serving, and cleaning easy.

Enjoy a market-leading return on your investment.

IMPULSE

Enjoy fast sales. Choose FPG Impulse for instant success.

With a cool core product temperature averaging +0.5° – +2°C, Impulse refrigerated cabinets are food and dairy-safe. Drinks are deliciously icy cold.

Impulse Series is an agile, compact solution for fast-paced retail. Integrate food and drink offers into point-of-sale counters, confectionery window run-ups, and gondola ends. These cabinets also make the best islands.

The open front format is perfect for impulse sales or add doors to optimise energy efficiency.

Available in two ranges based on depths, choose the cabinet model which best meets your capacity and location requirements:

Impulse Slim: With a slim depth of only 466mm, they go anywhere - ideal when you want to maximise product facings.

Impulse Plus: With an increased depth of 600mm, Impulse Plus provides both the product facings and extra capacity you need for high turnover products. All on a compact footprint.

visair

When business continuity is mission critical.

Dependable, robust, high-capacity food merchandisers.

Visair refrigerated is tested dairy compliant.
Chosen by food retailers for food safety, reliability
and robustness.

Visair heated is engineered with FPG IWave infrared
quartz technology.

Delivers fast heat up times and consistent heat.
Energy efficiency is high - only product on the shelf
is heated, not the surrounding air.

Chosen by food retailers for hot cooked chickens
and meals where core product temperature really
does matter.
