CEO

MEET THE FAMILY

FPG takes care with every cabinet we make.

We focus on designing premium, compliant food and drink display cabinets. Cabinets that achieve sustainable outcomes and operational cost savings through:

- Maximised energy efficiency.
- Extended cabinet lifetime through ease of maintenance and access to support and spare parts for the life of the cabinet.
- Extended food shelf life and reduced food waste.

As markets migrate to natural refrigerants, FPG will support you with options for refrigerated display cabinets.

Options and accessories are available to make the cabinet your own. Select those design and operational features important to you.

From application of custom colour and branded decals, to customer-facing facia and tray races, we can help you to create brand impact, improve your customer experience, and sell more product.

Let's meet the family.

CUSTOM

ISOform[®]

Create something exceptional.

Edgy design for innovative food retailers.

Sleek black cabinet frame, bright LED lighting, and elegant pinstripes. A sophisticated, modern stage to enhance your products.

With maximised display space, appraise your product range and capacity. Mix and match your merchandise and create interest by using distinctive displayware.

Create a display that is entirely yours. A premium display that reflects your brand, your identity.

visair

When business continuity is mission critical.

Dependable, robust, high-capacity food merchandisers.

Visair refrigerated is tested dairy compliant.
Chosen by food retailers for food safety, reliability
and robustness.

Visair heated is engineered with FPG IWave infrared
quartz technology.

Delivers fast heat up times and consistent heat.
Energy efficiency is high - only product on the shelf
is heated, not the surrounding air.

Chosen by food retailers for hot cooked chickens
and meals where core product temperature really
does matter.
